

HEX KEY

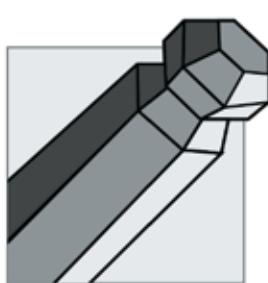

## HEX KEYS

**TEKIRO** engineered Hex Keys comes in individual and sets. Hex, Ball point and Torx heads are perfectly suited for typical repair and maintenance jobs.

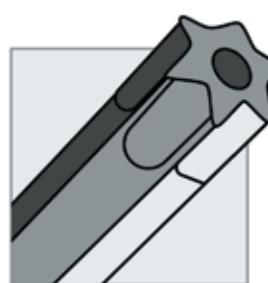

Manufactured from high quality material Tekiro hex keys exceeds both ANSI and JIS standards

HEX HEAD

BALL POINT HEAD

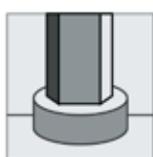

TORX HEAD

Ball End  
up to 25°  
work angles

High Quality  
Material with  
Head Treatment

Slot Machined  
High precision

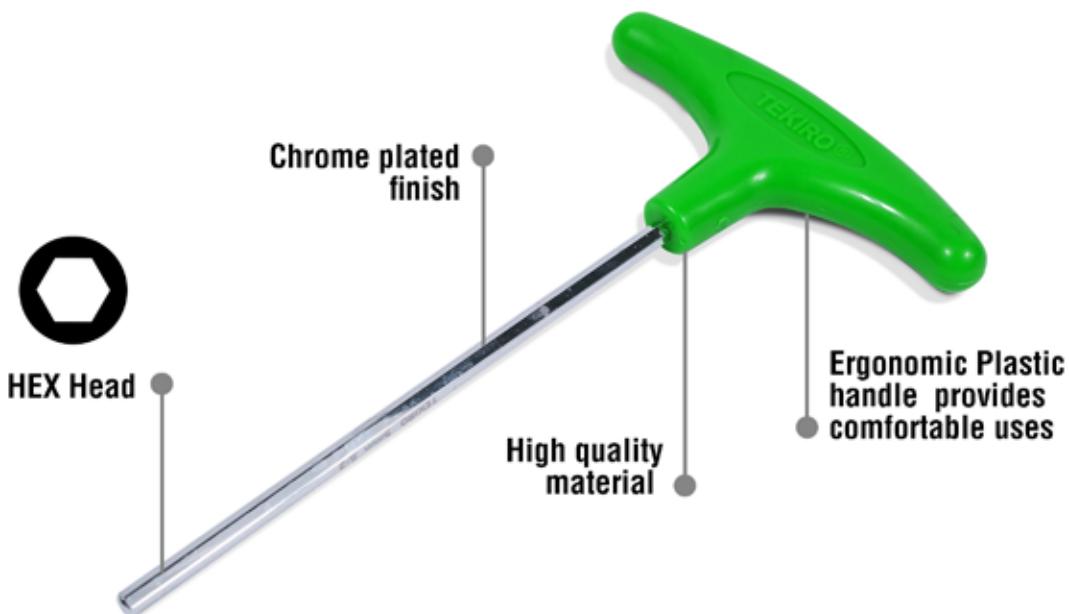

Quick Plug

Permanent Marking  
Easy identification  
on the key body

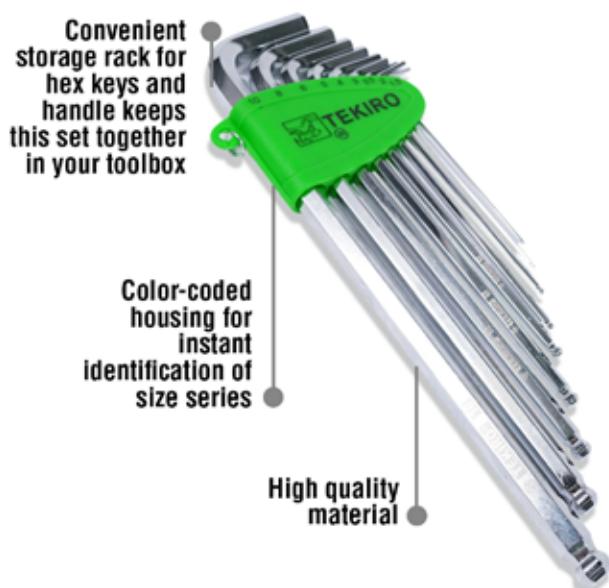

## T SHAPE HEX

Manufactured with high-strength and durable material. The grip is ergonomically designed to ease gripping, handling and improving torque performance. Routed tip finish for better gripping and holding of screws. The hex key are chrome plated to prevent oxidisation and rust.

## BALLPOINT HEX KEY LONG SET 9 PCS

**TEKIRO BALLPOINT HEX KEY LONG SET 9 PCS** includes 1.5, 2, 2.5, 3, 4, 5, 6, 8, 10 mm precision hex keys. Ball end design allows up to a 25-degree angle of entry for faster insertion and removal of screws. **TEKIRO BALLPOINT HEX KEY** are constructed of durable, high-quality material. The long design provides more torque and greater reach. Sizes are laser etched onto keys for quick and easy identification. Set also includes a plastic organizer with size markings.

**HOLDER HEX KEY**  
All keys are labeled by size and stored conveniently in the compact rack

**PERMANENT MARKING**  
Easy identification on the key body

**BALL TIP**  
Allows access and removal of bits normally unreachable by a standard hex key.

- S2 material with proper heat treatment for extra durability and strength
- Chrome plated finish for extra rust resistance
